Dear Parents,

**Welcome to SOAR: Summer of Arithmetic and Reading at St. Anne!**

SOAR is a summer academic program for students in grades 1-8 with two goals. The first is to promote reading and math skills during the summer months. Our second goal is to raise funds for a literacy library, upgrade technology, and many other important items.

**Record your goal and pledges:** Help your child set a goal for the number of hours he/she plans to read and practice math skills over the summer. Ask family and friends to pledge an amount of money per hour of summer skills work or make a flat donation. Many employers offer corporate matching funds. Determine if this is an option that is available through your employer. Record your reading goal and pledges on the attached SOAR contract.

**Complete your summer reading and math:** Throughout the summer, read and practice math skills, recording your time on the tally sheet we'll send home on June 1st. Get creative; listen to books on tape; do flashcards and workbooks; read aloud to your child; play Scrabble, Boggle, or other educational board or computer games.

**Win prizes:** This September, when we return reading contracts, students will collect pledged dollars and submit these donations with their tally sheets. The more your student reads, the more likely he/she is to win fabulous prizes at the SOAR celebration in September.

**Thank you for your support of St. Anne Catholic School!**
